

Billy Babylon Villa – Lapta, Northern Cyprus

Useful Information

Arrival

Key is in keybox to the right of the front door. Security code will be provided prior to arrival. Please leave one key in the box at all times as the front door can have a nasty habit of closing behind you when you are sat outside !!

Appliances Information

Washing Machine & Dishwasher

Turn on using wall switch above dishwasher.

Normally use 40 degree wash for washing machine and 70 degree for dishwasher.

Instruction booklets for both are in the drawer next to the dishwasher

Cooker

Cooker works off a gas bottle which is in a black cupboard under the kitchen window. There is a spare gas bottle next to the cupboard

Please leave a note for property manager should you need to use the spare gas bottle so that a replacement can be arranged for the next visitor.

Wi-Fi

Network details and password are on the underside of the router, next to the Television.

If the Wi-fi goes down, simply re-set the router using the re-set button at the back. If this does not fix, please contact Property Manager.

Roaming for UK phones works perfectly well in Northern Cyprus.

There is a mobile modem in the fruit bowl as back up in unlikely event of being needed. This will need to be topped up at a local shop

Wheelie Bins

Put at the top of the road (next to carpentry shop) on a Sunday evening. Should be emptied either Sunday or Monday.

Water Cooler

There should be a spare bottle next to the front door. Please ensure you leave a spare bottle for the next user.

Front of House, Pool, Gardens and Air Conditioning

Pool Maintenance will call twice a week, usually early morning. The pool should not be used for 1 hour after maintenance to allow chemicals to dissolve completely.

Exterior Pool lights controls can be found on the switch by the pool on the wall facing the pool gate. Please turn off each night. Interior pool lights are next to television.

Interior Pool lights are by remote control which can be found in the fruit bowl. Simply use the on / off button on the remote.

When you leave, feel free to leave behind any pool floaties / toys for next guest.

Garden Maintenance will call once a week.

Garden lights (for trees) are controlled from the switch inside the brown box. Left hand side of the box, as looking at the box. These are nice to have on when sat on the porch at night.

All rooms are complete with ceiling fans and air conditioning. Air conditioning is very expensive to run so please help us to keep rental costs down by:

- not running air conditioning with doors or windows open
- not running air conditioning when you are out of the house

All air conditioning controls are on a fixed 2 hour limit.

Switches for air conditioning are located as below:

Main Bedroom – Behind bedside cabinet

Bedroom 2 & 3 – Behind Bed

Front room – behind fire

Please empty the A/C overflow bottles (over the plants is ok) once full. These are located outside of the house. Effectiveness of the A/C will be impacted if these are full.

Other Information

Power Cuts

Power Cuts happen but not as frequently in the past. They usually only last a few hours at most.

Power cuts will effect water pressure due to the pressure being controlled by an electric pump.

If the power cut occurs in the evening you will find torches in each bedroom and in the kitchen, a small gas lamp in bedroom 2 wardrobe and candles in the drawer in the hallway unit.

Note that the internal pool lights will always” mysteriously” turn themselves on after a power cut. Please turn off if you do not wish to use.

Water Pressure

If pressure is constantly low, please contact Property Manager who will arrange for the pump to be checked. Please do not “play” with the pump yourselves.

Changing Money

We would recommend bringing enough Turkish Lira (GBP for airport transfers) for your first day only. You will get much better rates changing GBP to YTL using the local money changing company than you would using UK banks or travel agents. The nearest agent is Moonstar on the main road and is about a mile on the right hand side heading in direction of Girne.

Recommendations

Northern Cyprus is blessed with an abundance of beaches, restaurants and things to do.. Most have websites you can visit and reviews can typically be found on sites such as Trip Advisor

The restaurant and bar scene is constantly changing. Please contact owner or Property Manager for up to date recommendations.

Departure

Please return keys to key box and hide code
