

Walk to Woodland Holiday Park – Bar and Restaurant (5 – 10 mins depending on how fast you walk 😊)

This walk takes you round the back of the barn, and through the back of the woodland park past their private fishing lake, the lakeside lodges and onto the internal private road to the Clubhouse. Walk past the first lodge field on your left, toward the grassed field in front of you, then cut left towards the lakeside lodges and follow the road until you come to the clubhouse.

Dog walk along disused railway, through Woodland Holiday park and back

This walk takes you round the back of the barn, along the disused railway, and then back through Woodland holiday park and back under the railway bridge to the barn. A good short walk in the winter to stretch your and your doggy's legs. To extend the walk, you can do a lap around the parkland at the side of the lake (note: you must keep dogs on leads once you enter Woodlands and around the lake area).
